

We grow together and so
this garden represents
our school.

We are all here in this place which
develops and grows with our faith
and our learning.

The gardener represents our
parents, nurturing and
lovingly investing time and
energy to support our growth.

The governors are
represented by the fence
which keeps us all safe
and working together.

DSAT are our roots; they are our foundation for growth.

Our children are the centrepiece; they are the flowers in our garden, all needing different amounts of nurturing and love to support their growth and learning journey.

The staff are the bees essential for stimulating growth and a thirst for knowledge.

The sun is God shining His light and love upon us, enabling us to grow and work together towards a common goal.

Clouds and raindrops test our faith but the water nourishes and renews us.

The tree branches hold our Christian values showing we never give up, climbing higher and higher to reach our full potential.

This is the Marden Vale Garden and we are all proud to play our part in it.
